

# TAILOR MADE CUT

## Customized cutting education built around your salon.

No two salons cut the same—so why should your education be the same? Tailor Made Cut is a fully customizable cutting class designed to meet the unique technical goals, challenges, and creative ambitions of your team.

Partner with Keune's expert Cutting Educators to co-create a hands-on learning experience focused entirely on what your stylists need most. Whether you're refining core techniques, exploring trend-forward shapes, mastering texture and disconnection, or sharpening salon efficiency, this session is tailored to fit your team's reality behind the chair.

Because when cutting education is built around your salon—the impact is greater with your clients, and the confidence shows in the level of service you offer.

---
